Hybrid Course Special Code "h"	NOTE "h" in the LCC Class Schedule - This is a hybrid course, with both face-to-face time and online time. 3 credits are in the classroom each week (3 hours) & 1 credit is online each week You will be expected to use the internet and email on an almost daily, basis. This course has a Moodle website (http://classes.lanecc.edu) which will be used extensively during the term. Students will use an internet-capable computer to: • Complete weekly quizzes, opinion polls, and turn in other assignments • Participate in class discussions in online forums • Read, listen, and view historical materials from a variety of websites • Complete exams in the Social Science Computer Testing Lab CEN456 • Send/Receive Moodle messages to/from the instructor
Course Objectives	• Develop knowledge and understanding of people and events that shaped this nation's history to 1840. • Develop the ability to analyze and interpret historical data from multiple sources and develop multiple perspectives. • Develop meaningful connections and insights into the links between "history" and contemporary times.
Procedures	Course format is a blend of lecture and discussion, prompted by student questions, reading assignments, and audio and video clips. As a hybrid course, it has a significant amount of work that must be done online. Students must attend class, participate online, and keep to the schedule of readings, quizzes, assignments, and exams.
Instructor Contact	I am accessible via email, phone/voicemail, or in person at office hours or scheduled appointments. I urge all students to use Moodle messaging to contact me outside of class and office hours. I will use the Announcement Forum in Moodle to contact students on a regular basis. LCC requires that all students provide an email address to the college. You should be certain that your email address in ExpressLane/Moodle is correct.
VERY IMPORTANT INFORMATION	No late work is accepted. You have assignments, forums, quizzes, and opinion polls to complete during the term. Each is due by the deadline listed in class website in Moodle. All assignments are turned in via the class website in Moodle. No make up exams are given. Students will have a 3-4 day period of time during which they must complete the midterm and final exams.

Evaluation <i>Attendance & Participation</i>	Attendance and Participation in class discussions/activities, both online and in-class will constitute 10% of your final grade. I expect you to be in attendance for every one of the 19 days this class meets. You will sign a role sheet each day in class. Absences will result in a 0.5% loss to your final grade in the class. Online participation will involve a variety of tasks (such as polls) based on the course subject matter.												
Evaluation <i>Chapter Quizzes</i>	Chapter Quizzes provide a check of your textbook reading comprehension and a way to keep the material fresh, during the long 4-day weekend span between classes. All of these questions are provided by the textbook publisher, not the instructor. Each online quiz in Moodle consists of a random 20 questions out of a pool of 90 questions. You may take them as many times as you wish, but must score at least a 50% or better on at least one attempt, <u>before the deadline of 11:55pm on MONDAYS</u>, in order to earn credit. Each weekly quiz will count for 1% of your final grade. Since there are 10 chapters total, together, they will constitute 10% of your grade in this class. Note: Although you need to take each quiz on time and score 50% or higher just once (to earn your 1%), you should take them 4-5 times in order to "see" most of the questions in the 90 question pool. These quizzes will be a good source of review for your exams. Most importantly, 10-15% of the <i>actual</i> questions on your graded midterm and final exams will include these computer quiz questions (chosen by the instructor and coinciding with material presented during class).												
Evaluation <i>Forums</i>	Using web-based materials, students will study and participate in week-long, online Forums during the course of the term. Your posts and replies will comprise 20% of your grade in the course. Detailed information for how your posts and replies will be scored will appear in Moodle, along with the required written, audio, and video materials that you will use each week, including the questions you will answer. Instructions and deadlines will be announced in class and via email, and will also appear in Moodle. Students are expected to participate daily, by reading, posting, and replying, throughout the week when the forums are assigned. (Weeks 3,4,8,9)												
Evaluation <i>Exams</i>	Students will take two non-comprehensive Exams, each constituting 30% of your final grade in the class. Exams consist of multiple choice questions, true/false, matching, maps, etc. Exams are computerized and must be taken in the Social Science Computer Lab CEN456. Your exams will not be given in class or during class hours, so be sure to plan your schedules accordingly. You will take your final exam on any day, Monday through Thursday, of Finals Week.
