| <p>these findings being completely inaccurate by ...</p> <p>:</p> <p>In the 19th Century, scientific theories on racial differences indicated that whites and blacks were actually two separate species. Regardless of these findings being completely inaccurate by today's scientific standards, many Americans, believing in the power and superiority of science, concluded that these scientists were correct and therefore condoned many prejudicial and discriminatory acts by whites against blacks during that time period.</p> |  |       | (1.00) | 52/68 | (76%) | 76% | 0.427 | 0.28 | 0.08 |

They were often at odds with Catholics and non-believers. The native-born Americans who were atheists or who were least concerned about religion tended to be members of the Democratic Party.</p> |  |       |        |       |       |     |       |      |      |
