Student Evaluation of Instruction

This is an online version of the evaluation form which many students fill out towards the end of the term in some of their courses. The opinions and feedback of students who are absent on the day the survey is given are never gathered via the traditional "in-class" survey. And, issuing a survey in class, when it could so easily be done online, only takes away from valuable class time that should be spent on the course material. Finally, as you know, I will post these anonymous results on my website for any future students to read before decided to take or remain in this history class with this instructor.

The only module in Moodle which allows for **completely anonymous student participation** (even though you are logged into Moodle with your L# and PIN) is this Questionnaire Activity, specifically set to anonymous mode, which I have done.

For students who complete BOTH this survey AND the Hybrid Class Survey by the **deadline** of Thursday of Finals Week at 5pm, I will add 1% to your final class grade for the term. When you submit the survey, it will automatically enter a "1" in the Moodle gradebook, signifying that you have completed the survey. The survey data does NOT match student names to their answers. With this nice feature, you can remain truly anonymous, BUT still receive the extra credit for turning in your responses.

I hope you take advantage of this opportunity.

- 1
- These surveys are anonymous. Several students in past terms have suggested that I include an optional "name" field in the survey for students who DID want me to know who had written the responses. So, leave this field empty to remain anonymous, or enter your name if you'd prefer.

What did you like about the class?
Response
I'm not a huge fan of history but I enjoyed this class. Professor Escobar knew exactly what he was talking about and was passionate in his teaching which I greatly respect and appreciate in my professors.
The way Mr. Escobar runs his class is the picture perfect method in my opinion. It allowed me to learn, take major interest in what was being taught. And put in ways that were affective in helping me learn. He also took the time needed for students to have one on one talks. And he is extremely knowledgable about the subjects he is teaching, as well as incredibly enthusiastic and intrigued by what he was teaching. I wish I could have him as an instructor every term. Wasn't able to take the following history class which is a big bummer. Needless to say, my favorite instructor yet.
The lectures are very clear and effective. Love the video clips to keep the lecture from being too dry. The use of current day examples to relate back to historical events. The email reminders are super helpful.
I liked coming to class and hearing the lectures. I learned the most in class and found it very interesting and enjoyable to hear what the instructor had to say about history.
I liked that the instructor showed a huge interest in the subject and that I got to do most of my work online.
I loved how the instructor didn't make us memorize dates/statistics. He was always clear about what would be on the test. The exams were based on understanding as well as knowledge, and we were compensated for questions that over half the class missed. Joe Escobar enjoys teaching the material, which allowed me to enjoy learning. He was friendly and understanding, and his class was challenging but fair.
I like the clear instruction and the fact that the weekly quizzes can be taken any number of times.
I liked that I could pay attention because Escobar actually has enthusiasm in his lectures making them interesting and not dull like most history courses I have experienced.
I liked how well the information was presented. My other professors could learn a thing or two from Joe on how to use class time efficiently.
My favorite part of the class was learning about the Civil War.
Lectures were not boring.
How unbiased the instructor was.
I enjoyed that the instructor was very interesting and kept the class engaged.
I liked that it was very organized, and that class time was spend very effectively by the instructor.
very fun to learn about, and i think that everyone should take this class to really get a feel for our history.
Everything but if I had to choose one thing then it would have been the way that you taught the class. As well as the materials that you used they were perfect!
Unknown previous Knowlege.
I liked that the instructor was so interested in the subject. Some teachers are afraid there days to express their opinion. Refreshingly Mr Escobar is not one of those.
It was great. very informative and fun.
instructor was prepared, knew his material and gave every opportunity for students to succeed.

The instructor was one of the best I have ever had at LCC.
the format of hybrid
How into you were as a instructor. You can really tell that you like what you teach.
I enjoyed the way the class was ran and how the instructor presented the information.
The instructor was very knowledgeable and passionate about history.
Excellent textbook, enthusiastic teacher. Online forums instead of papers.
Very easy and very informative. I now feel like I can actively participate in political conversations about America's dark past during family reunions and while trying to pick up chicks at the bar...when I'm old enough, of course.
Honestly everything. I never felt like i was waisting my time either in class or doing the homework assignments.
That we were made to know that this is nothing like the high school classes we were taught.
History was presented in an objective fair manner without personal bias.
I loved the class and had a great term because of it. This class was probably my favorite of every class I have taken so far (I have 44 credits).
Without a doubt the best History class I have every taken
I love how enthusiastic Professor Escobar is about teaching the class. He makes it very, very easy to pass as long as you are willing to put in a little bit of extra time.
I thought the depth of knowledge on the subject was exceptional. The use of varying medias to portray information (videos, graphs, cartoons etc.) kept myself the student interested and eager to for the presentations.
Interesting topic, and teacher that knew what he was talking about and made the material understandable.
Set up for success and ability to learn subject
I liked that the quizzes were a way for you to get the opportunity to bring your grade up if you were not doing well. I liked that attendance was mandatory because since it affects the person's grade, you had to show up and listen to the lecture. The deadlines were not unreasonable and the work was never too hard. I definitely enjoyed the class.
The instructor was very available to answer all my questions, and understanding when circumstances made me miss class and I needed to catch up.
I liked the hybrid part about it. It was something new to me. Also I liked the knowledge the teacher had.

How could this class be improved? Add any comments about the class and/or instructor that you feel might be helpful or useful.

Response
The only thing that I wish was different is that I would have liked if the professor jumped in our forum discussions every now and then with his opinion on the topic. Also, the weight of the mid-term is heavy, I had a 90% until the mid-term and then dropped to a 66% when I didn't do as well. I have terrible testing anxiety so if there could have been less weight on the midterm and maybe a couple more assignments to balance it out that would have been great. Other than that, this class was great!
I think he's got everything well planned and under control.
Possibly a few aspects about the forums can be frustrating. Maybe it's just some of the subjects. Other than that I love the class. Escobar is a great instructor.
This class is already very good and I can not think of any improvements.
Make the online forums not online. Do them in class instead.

Some sort of heads–up about what level of detail we'll need for the test, like making the study list available earlier or noting which topics will and won't be covered in class.
It might be nice if the tests were easier and the grade adjustments on test scores were smaller.
I don't have any comments on how it can be improved.
Maybe some examples of good forum posts, or what kind of discussions we are expected to have in the forums. I felt like in the earlier forums no one really knew how to reply to one another or what they should be arguing for or against.
Honestly no, i enjoyed this class very much and can't think of anything that can be improved.
More information on African Americans, Native Americans, women.
Explain a little better about forums and how important it is to post and how hard you grade them.
Possibly having more classwork than online
I can't think of anything to improve this class.
I think the way he taught was well, and i have no complaints
I would not change anything at all. JOB WELL DONE!
I think it works just how it is.
Extra credit opportunities...
not much really. disagreed on a couple of interpretations, but other than that, excellent.
The only "stale" part of the class was the online forum, students didn't participate as much as they should.
Replace the forums with some kind of individual worksheet / assignment i.e. watch video, write short essay.
I think it would be helpful to go slower. it's hard to wrap your brain around everything and sometimes there was just too much being taught at once
I think you have the class down pretty perfectly
I cannot think of anything that could improve this class.
No more forum usage. I find it a waste of mine and other students' time.
I have no complaints about this class at all. This has been one of my favorite classes i have ever take and i truly thank the instructor for his professionalism and amazing teaching ability. Class was always on task and we never wasted time. Really, this class was great. I actually looked forward to waking up and going to the class every Tuesday and Thursday. Thanks a lot.
to difficult
Longer availability for forums.
no suggestions
N/A
The only way I think it could be improved is to allow some room for class discussions and debates over certain controversial topics in class. The forums were a great way to get that type of group think but personally I am a person who would rather discuss it in class and I am sure I am not the only one.
I don't think there is anything that needs to be improved! I'm very happy with the class
Organization of the moodle profile. The information of articles are 3 links aways from the home page, which seems like a simple fix. Have quizzes and articles for the for forums posted on the front page in sections designated for both.
No comments here. It really seemed like the lesson plans were well thought out, he never ran out of time, or

finished too early.
Make forums more accessible or interesting for students and emphasize the importance of them
I believe that the quizzes should be graded based on how well you do on them. It gives you more of a motivation to read the chapters and take better notes on them. Other than that, the class was well taught and Joe knew exactly what he was doing.
I think sometimes the long video clips made me zone out, so a few less videos would be helpful in keeping people engaged.
Honestly I feel that the class is fine as it is
