Equipment Supplied by Conference Organizers

All sessions **except Roundtables and Poster Sessions** are supported with a high-end computer (multimedia Windows PC), high-speed Internet

connection, video data projector, microphone, and screen. As in previous years, conference organizers provide significant levels of equipment and technical support to the sessions. If your proposal is accepted, you will be provided with complete specifications of the equipment available for your use. An opportunity is provided for onsite technical rehearsal of all sessions.

Please note that only equipment provided by the conference organizers can be supported by the Technical Support Team. The Technical Support Team cannot provide specialized cabling, drivers, software, connectors, or other out of the ordinary items. Presenters assume full responsibility for the security and operation of their personal equipment.

Additional Audiovisual Equipment Requested

Presenters may be responsible for expenses associated with additional equipment (see "Equipment Supplied by Conference Organizers" above)

To select multiple items hold down your ctrl key while making your selections.

Document Camera
DVD Player
Flip Chart with Markers
VCR

Macintosh multimedia platform ☐ Yes ☐ No

Please tell us about any special software needs you will have:

Presentation Information:

***Presentation Type (Please see [descriptions.](#))**

Select Presentation Type ▼

If Learning Center Course is selected, please select options below:

☐ Full day ☐ Half day ☐ Lab ☐ No lab

***Session Tracks (Please see [descriptions.](#))**

Select Session Track ▼

***Presentation Title**

Approximately 10 words that will catch the attention of conference participants and accurately describe your session.

***Presentation Description**

50 to 75 words used in the conference program to succinctly, persuasively, and accurately tell attendees what to expect from your session. The description should be completed in such a way to help conference

participants determine the scope and level of the session and its appropriateness to their needs. Session descriptions should be modeled after the samples and should answer the following two questions: **"What will participants in this session learn?"** and **"Who will this session particularly benefit?"**

***Presentation Plan**

Provide a brief overview of your proposed activities, visual aids, and handouts. Describe how you plan to ensure audience involvement. **Traditional lecture-only presentations are strongly discouraged.**

All presenters are required to register and pay the conference registration fee. Neither honoraria nor expenses are paid to program presenters. A \$50 discount is available to participants from [League Alliance institutions](#). Visit the membership section of our website for more information about Alliance membership and its benefits.

Program Changes

Conference coordinators reserve the right to make changes in proposed presentations, to place sessions in alternative program tracks, and to encourage joint presentations if multiple proposals have been submitted on similar topics.

After submitting your proposal you will receive an email confirmation.
