Tue Dec 07, 2004

Lab Notes 8:00 a.m. to 1:00 p.m.

Computers Being Excessed - All five (5) computers are ready to be picked up as "Excess Property".

Laptop Password - Mari Good's class was taking a final exam and she asked me for the password to the laptops so she could help a student recover some lost work. I gave her the password.

Monitors Removed - Craig Gee removed the monitors at the back of the room that were marked "Do Not Use". He also has the key to the equipment room.

Mon Dec 06, 2004

initiate an over-write program that repeats seven times.

Two (2) computers are done. One (1) is in the final stages and when complete can be put with the other "Excess Property" computers. Two (2) computers need to have their hard drives erased.

Wed Dec 01, 2004

Lab Notes 8:00 a.m. to 1:00 p.m.

CIT135TUTOR IP Address Changed - Per Jason's request, I changed the IP address from a dynamic to a static address. The static address is 10.25.0.44, Subnet is 255.0.0.0, Gateway is 10.25.0.1, and the DNS Server is 10.16.0.25.

I tested the change by going to <http://test.lanecc.edu>, clicking on the "*" next to "Secure Online Testing", and logging in with my "L" number and password. The computer is shown as being part of a secure computer system.

CIT130B3X CD Drive Replaced - CSW installed a new CD drive in the computer. I tested it and the drive now works.
