Special Code "h"	NOTE "h" in the LCC Class Schedule - Hybrid classes require in-class and online participation. 3 credits are in the classroom & 1 credit is online each week You will be expected to use the internet and email on an almost daily basis. This course has a Moodle website (http://classes.lanecc.edu) which will be used extensively during the term. Students will use an internet-capable computer to: • Complete weekly quizzes and opinion polls • Turn in assignments • Begin or continue class discussions in online forums • Read historical materials from a variety of websites • Complete exams in the Social Science Computer Testing Lab CEN456 • Send/Receive email/messages from the instructor
Course Objectives	• Develop knowledge and understanding of people and events that shaped this nation's history from 1840 - 1900. • Develop the ability to analyze and interpret historical data from multiple sources and develop multiple perspectives. • Develop meaningful connections and insights into the links between "history" and contemporary times.
Procedures	Course format is a blend of lecture and discussion, prompted by student questions, readings, primary source document analysis, and video clips. As a hybrid course, it has a significant amount of work that must be done online. Students must attend class, participate online, and keep to the schedule of readings, quizzes, assignments, and exams.
Instructor Contact	I am accessible via email, phone/voicemail, or in person at office hours or scheduled appointments. I urge all students to use Moodle messaging to contact me outside of class and office hours. LCC requires that all students provide an email address to the college. You should be certain that your email address in ExpressLane/Moodle is correct.
VERY IMPORTANT INFORMATION	No late work is accepted. You have assignments, forums, quizzes, and opinion polls to complete during the term. They are all due by their respective deadlines. All assignments are turned in via the class website in Moodle.

	No make up exams are given. Students will have a 3-4 day period of time during which they must complete the midterm and final exams. Grades of incomplete <u>will not be given</u>.												
Evaluation <i>Attendance & Participation</i>	Attendance and Participation in class discussions/activities, both online and in-class will constitute 15% of your final grade. I expect you to be in attendance for every one of the 20 days this class meets. You will sign a role sheet each day in class. Absences will result in a 0.5% loss to your final grade in the class. Online participation (5%) will involve a variety of tasks (such as polls) based on the course subject matter.												
Evaluation <i>Chapter Quizzes</i>	Chapter Quizzes provide a check of your textbook reading comprehension and a way to keep the material fresh, during the long 4-day weekend span between classes. Each online quiz in Moodle consists of a random 20 questions out of a pool of 90 questions. You may take them as many times as you wish, but must score at least a 50% or better on at least one attempt, before the deadline of 5pm on MONDAYS, in order to earn credit. Each weekly quiz will count for 1% of your final grade. Since there are 10 chapters total, together, they will constitute 10% of your grade in this class. Note: Although you need to take each quiz on time and score 50% or higher just once (to earn your 1%), you should take them 4-5 times in order to "see" most of the questions in the pool. These quizzes will be a good source of review for your exams. Most importantly, 10-15% of the <i>actual</i> questions on your graded midterm and final exams will include these computer quiz questions, word for word.												
Evaluation <i>Forums</i>	Students will participate in online discussion forums, during the course of the term that will comprise 15% of your final grade in the course. The appropriate links, written instructions, and deadlines will be announced in class and appear in Moodle.												
Evaluation <i>Exams</i>	Students will take two non-comprehensive Exams, each constituting 30% of your final grade in the class. Exams consist of multiple choice questions, true/false, matching, maps, etc. Exams are computerized and must be taken in the Social Science Computer Lab CEN456. Your midterm exam will not be given in class, so be sure to plan your schedules accordingly. You may take the midterm exam on one of the following days: Thursday, February 4 (following class) Friday, February 5 Saturday February 6 Monday, February 8 (deadline 7pm) You will take your final exam on any day, Monday through Thursday, of Finals Week.
