## Previewing Questionnaire

[View](#)[Advanced settings](#)[Questions](#)[Preview](#)

### McPherson QA Survey

All students are required to complete this survey to receive a grade on the McPherson QA assignment.

First, you should know that this survey is not anonymous, which is unlike a teacher and course evaluation survey you often complete at the end of a term.

Second, your responses to this survey will not be visible to anyone else in the class and will not be shared by me. It is a private document between one student and one instructor.

\*1

Your name

\*2

What was your group number? (check [HERE](#) if you have forgotten)

- ☐ 1
- ☐ 2
- ☐ 3
- ☐ 4
- ☐ 5
- ☐ 6
- ☐ 7
- ☐ 8

\*3

If an A is "excellent", B is "above average", C is "average", D is "below average", and F is "failing, how would you rate your own efforts, group communication, and work produced over the duration of the 2-week assignment?

- ☐ A
- ☐ B
- ☐ C
- ☐ D
- ☐ F

\*4

Use this space to say/explain any information that you'd like to share with me on your behalf.

- 5 Using that same grading scale, how would you rate your other group members' performance over the duration of the 2-week assignment. Be sure to enter their name, followed by the letter grade you'd give them. Example:  
John Doe - B

- 6 Use this area to share you thoughts on any one or all of your group members and why you scored them as you did in the previous question.

- 7 Quality involves both a well-written question (clear and answerable for someone who had read the chapter) as well as a question that was relevant to the subject area and main theme or emphasis of the chapter.

After looking over and answering the questions of the group you were paired and "competing" against, overall, how would you rank the quality of your questions compared the their questions?

- ☐ My group had better questions  
☐ The questions were about equal in quality  
☐ Their group had better questions

- 8 This assignment required students to work in groups, randomly assigned, for which they would earn an actual assignment grade in this class. Overall, do you prefer this type of assignment or not?

- ☐ Yes, I found it useful to work with others and would prefer to do something like this again.  
☐ I am torn and in the middle. I both like and dislike aspects of groupwork.  
☐ No, I would rather not work in groups and be responsible for my own work instead.

9

Feel free to use this box to explain your answer above.

10

I told students that I would definitely be "open" to hearing your feedback on the various aspects of the assignment itself. Use this space to offer constructive criticism, support, or any other thoughts you have about this specific assignment and how it relates to this class. Feel free to discuss the use of wikis, groupwork and grades, time-duration-deadlines, clarity of instructions, or anything else you think I should know to make the assignment more useful or helpful for the future classes and students.
